

## Mission Statement

### *RadiologyInfo's* Mission

*RadiologyInfo*<sup>™</sup> is dedicated to being the trusted source of information for patients, families and health care providers about the vital role of medical imaging, image-guided therapy and radiation therapy in health care.

*RadiologyInfo* is the public information resource developed by health care professionals in collaboration with patients. It is sponsored by the Radiological Society of North America (RSNA) (<http://www.radiologyinfo.org/en/info/about-rsna>) and the American College of Radiology (ACR) (<http://www.radiologyinfo.org/en/info/about-acr>).

For more information about *RadiologyInfo*, click here (<http://www.radiologyinfo.org/en/info/about-terms-of-use>)

(<https://www.healthonnet.org/HONcode/Conduct.html?HONConduct829925>) This site complies with the HONcode standard for trustworthy health (<http://www.healthonnet.org/HONcode/Conduct.html>) information: verify here. (<https://www.healthonnet.org/HONcode/Conduct.html?HONConduct829925>)

#### **Disclaimer**

This information is copied from the *RadiologyInfo* Web site (<http://www.radiologyinfo.org>) which is dedicated to providing the highest quality information. To ensure that, each section is reviewed by a physician with expertise in the area presented. All information contained in the Web site is further reviewed by an ACR (American College of Radiology) - RSNA (Radiological Society of North America) committee, comprising physicians with expertise in several radiologic areas.

However, it is not possible to assure that this Web site contains complete, up-to-date information on any particular subject. Therefore, ACR and RSNA make no representations or warranties about the suitability of this information for use for any particular purpose. All information is provided "as is" without express or implied warranty.

Please visit the *RadiologyInfo* Web site at <http://www.radiologyinfo.org> to view or download the latest information.

**Note:** Images may be shown for illustrative purposes. Do not attempt to draw conclusions or make diagnoses by comparing these images to other medical images, particularly your own. Only qualified physicians should interpret images; the radiologist is the physician expert trained in medical imaging.
